

**<WORK IT OUT>**

If we consider the whole tangram as 1, each piece can be represented as a fraction.

Fill in the blanks:

Shape	Each as a fraction of the whole square	How many pieces of the shape I have	How many totally as a fraction of the whole
The large triangle			
The medium triangle			
The small triangle			
The square			
The parallelograms			

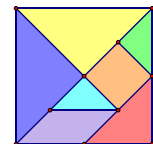

Totally I have \_\_\_\_\_ of the whole tangram. (fill in a fraction)

**YOUR NAME:** \_\_\_\_\_
