

Joint MA/ATM meeting – Exeter Branch

Numbers of Formats of Numbers

John Mason and Anne Watson

Wednesday 26th September

Exeter Mathematics School

coffee from 6.00pm

session 6.15pm – 8.00pm

Appreciating multiplicative relationships is one of the challenges encountered by many children. We suspect that encountering a variety of formats for number early on could enrich children's experience, appreciation and comprehension of number.

Participants will be invited to engage with a variety of tasks based on making sense of various number formats, providing access to topics often delayed until Secondary or later.

Suitable for teachers of mathematics from primary or secondary schools.

This is a **free session** but please contact richardperring74@gmail.com if you would like to come so that we can make sure there's enough coffee! Spaces are limited and places will be allocated on a first come first served basis.
