

Workshop Information

<i>Workshop No. 7</i>	<i>Title: Teaching for Mastery in the Secondary Classroom</i>	
<i>Presenter/s:</i> Secondary Mastery Specialists for the Jurassic Maths Hub	<i>Target phase:</i> Secondary	<i>Aim:</i> Practical workshop
<i>Explanation of the session:</i> This session will give an overview of the Five Big Ideas from the NCETM's Teaching for Mastery Programme. Led by Mastery Specialists who have worked to develop these Big Ideas in their own classroom and department over the last two or three years, as well as working with teachers in other schools, this session will offer some stories of change and examples of ways in which teachers and heads of department might begin to work on Teaching for Mastery in their own school.		
<i>Delegates should leave with:</i> <ul style="list-style-type: none"> • A better understanding of the principles underpinning the NCETM's Teaching for Mastery Programme • Examples and strategies to consider when developing Teaching for Mastery in a Secondary School
