

Developing Pedagogy in A Level Maths

Work Group Flyer

NCP 19-23

Aims

Develop your teaching of A Level Maths and that of your team through:

- know the requirements of the new A Level Mathematics
- understand the purpose of the overarching themes
- be confident in teaching new aspects of pedagogy
- become a part of a developing community of practice.

Schools and colleges of participant teachers will:

- improve the capacity of staff to teach A Level Mathematics and Further Mathematics

Who is this for?

- A Level Maths teachers.
- Heads of department
- 2nd in Dept/KS5 coordinators.

What is involved?

4 face to face Work Group meetings (1 full day, 3 half-day), with a gap task to complete between each meeting.

The Work Group meetings will be held at Poole Grammar School on the following dates:

12th November 2019 (09.30-16.00)

and half days – 22nd Jan 2020, 19th March 2020, 2nd June 2020 (13.00 – 16.30)

This a workgroup so there is an expectation for participants to:

- Share their ideas, results of gap tasks and reflections with other members of the work group.
- Disseminate learnings from the work group with colleagues in departments/schools.
- Contribute to Work Group evaluation processes.

Funding

This Work Group is free to participants and run in partnership with the Advanced Maths Support Programme. Cover and travel expenses will need to be funded by each school, as necessary.

If you're interested, what next?

Please contact Ashley Pape (Workshop Lead) PapeA@poolegrammar.com or jurassicmaths@woodroffe.dorset.sch.uk for further information.
