

# Secondary Subject Leadership

Phil Eadie  
Darren White  
Sam Kent  
Richard Perring

NCP24 - 15

## What is involved?

Participating subject leaders will help determine the content of this Work Group. It is your Work Group!

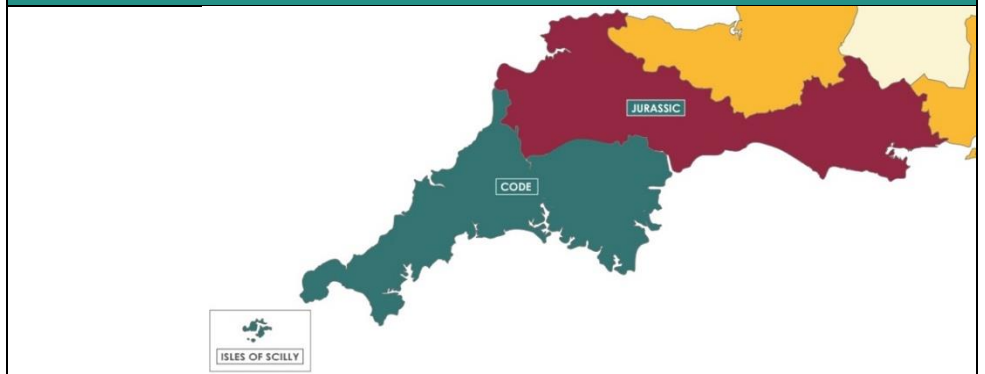

Building upon last year, we shall continue to consider the implications for maths departments of the Ofsted Subject Report. This will include developing mathematical thinking and problem-solving within your curriculum.

On-line sessions will be conducted collaboratively between participants within Jurassic and CODE Maths Hub regions.

Face to face workshops will be within Maths Hub regions to reduce travel.

## Maths Hub Regions

## Workshop details

Event	Hub	Date	Time	Location
Launch Online	Both	Tuesday, 4th December 2024	16:00 – 17:30	Online
